Ontario Landlords Watch

A collaborative initiative of landlords, tenants, housing sector professionals, investors and all who support them, from across the Province of Ontario who believe their municipalities need to adopt fair billing practices for all persons, without creating different 'classes' of consumers.

We believe it is unfair to transfer a tenant's debt to the landlord's tax roll. The landlord is not the consumer of the utility and should not be forced into paying. Everyone should pay their own bills. That's common sense!

We are also concerned with the potential harm to tenants, especially in the affordable housing sector, and taxpayers. Visit our website **www.ontariolandlordswatch.com** for more information. Get informed and tell others!

Download the PETITION, sign it and send it in to Ontario Landlords Watch as soon as possible.
